PRIVATAIR GERMANY RECEIVES JAR-145 APPROVAL

International business aviation specialist PrivatAir has announced that its German affiliate PrivatAir GmbH has received JAR-145 maintenance approval from the Luftfahrt-Bundesamt (German civil aviation authority).

PrivatAir's CEO, Greg Thomas, says "This approval means greater autonomy and flexibility within the framework of our operations on behalf of Lufthansa (transatlantic services to Newark and Chicago) and Airbus (corporate shuttle for Airbus personnel between Toulouse, France, Hamburg, Germany, and Filton/Chester, United Kingdom. We will also be offering line maintenance services to third parties in Düsseldorf."

PrivatAir's JAR-145 certificate No. LBA.0157 is issued for an initial period of one year and will be unlimited thereafter. It is valid for line maintenance at Düsseldorf airport station on Airbus A320 series aircraft (A319, A320 and A321) equipped with both IAE V2500 and CFM 56 engines.

PrivatAir line maintenance stations are also planned for Hamburg and Filton in the near future.
